

AIR INDIA AND KENYA AIRWAYS ENTER CODESHARE PARTNERSHIP

- Air India-Kenya Airways codeshare partnership complements existing interline partnership
- 'AI' code on Kenya Airways' Nairobi-Mumbai service, 'KQ' code on Air India's Delhi-Nairobi service
- One-stop connectivity to passengers from Kenya to Southeast Asia and Australia via Mumbai, and vice versa

GURUGRAM / NAIROBI, 30 January 2025: Air India, India's leading global carrier, and Kenya Airways, a leading African carrier, have entered a codeshare partnership, reaffirming their commitment to boosting seamless travel between India and Africa, and beyond. The codeshare partnership complements the existing interline agreement between the two carriers.

The codeshare and interline partnerships together allow passengers of both airlines to enjoy convenient access to a wider range of destinations across regions, leveraging a single ticket and a unified baggage policy for a hassle-free travel experience.

As part of the codeshare agreement, Air India will place its 'AI' designator code on twice daily flights between Nairobi and Mumbai operated by Kenya Airways, which will seamlessly connect passengers via Mumbai on Air India-operated flights to or from Bangkok (Thailand), Colombo (Sri Lanka), Dhaka (Bangladesh), Malé (The Maldives), Melbourne (Australia), and Singapore. These are in addition to existing connections that passengers from Nairobi can take to several other destinations within and outside of India via Delhi, when flying Nairobi to Delhi with Air India.

The new agreement also enables Kenya Airways to place its 'KQ' designator code on Air India-operated flights between Delhi and Nairobi, thus enabling Kenya Airways passengers from across Africa to travel to Delhi via Nairobi.

*"Deepening our partnership with Kenya Airways aligns perfectly with Air India's strategic vision of expanding our global footprint and strengthening our position in key markets", said **Nipun Aggarwal, Chief Commercial Officer, Air India.** "Our codeshare partnership will provide significant benefit to guests of both airlines, and also contribute to the overall growth of air travel between India and Africa."*

The interline agreement between Air India and Kenya Airways enables passengers to seamlessly travel on a single itinerary between any of 28 points in Africa (Accra, Addis Ababa, Dar Es Salaam, Harare, Johannesburg, Cape Town, Victoria Falls, Seychelles, Kilimanjaro, Mombasa, and Zanzibar to name a few), and any of 15 points in India (Ahmedabad, Bengaluru, Chennai, Delhi, Goa, Jaipur, Kochi, Kolkata, and Hyderabad to name a few).

"We are delighted to expand our partnership Air India, that will open up significant opportunity for our passengers. This codeshare agreement allows us to offer seamless connections to a wider range of destinations across both airlines' networks, making travel easier and more convenient" said **Julius Thairu, Chief Commercial and Customer Officer, Kenya Airways.**

Air India and Kenya Airways plan to progressively add other destinations in their networks to the codeshare agreement.

The codeshare flights are available for booking through Air India's and Kenya Airways' respective booking channels and through travel agents.

About Air India group

The Air India group – comprising of full-service global airline Air India and low-cost regional carrier Air India Express – is spearheading a new era of Indian aviation. The Air India story began in 1932 when JRD Tata piloted the airline's inaugural flight and opened the skies for aviation in India. Today, Air India group employs more than 30,000 people, operates over 300 aircraft and carries customers to 55 domestic and 48 international destinations across five continents.

Returning to the Tata Sons in 2022 following 70 years under Government ownership, Air India group is in the midst of a five-year transformation program, Vihaan.AI. As part of the transformation, Air India placed the then largest-ever order for 470 new aircraft in 2023. In 2024, sister airlines Air Asia India and Vistara were successfully merged into Air India Express and Air India respectively, and the Airline opened South Asia's largest aviation training academy. A new flying school is scheduled to open in 2025, and construction of a greenfield maintenance base, to be operational in 2026, is underway. In addition to receiving new aircraft, all existing aircraft are progressively undergoing a full interior refit.

With transformation underway across all facets of the business and India's rich legacy of hospitality, Air India is committed to being a world class global airline with an Indian heart.
