About Air India group

The Air India group – comprising of full-service global airline Air India and low-cost regional carrier Air India Express – is spearheading a new era of Indian aviation. The Air India story began in 1932 when JRD Tata piloted the airline's inaugural flight and opened the skies for aviation in India. Today, Air India group employs more than 30,000 people, operates over 300 aircraft and carries customers to 55 domestic and 48 international destinations across five continents.

Returning to the Tata Sons in 2022 following 70 years under Government ownership, Air India group is in the midst of a five-year transformation program, Vihaan.AI. As part of the transformation, Air India placed the then largest-ever order for 470 new aircraft in 2023. In 2024, sister airlines Air Asia India and Vistara were successfully merged into Air India Express and Air India respectively, and the Airline opened South Asia's largest aviation training academy. A new flying school is scheduled to open in 2025, and construction of a greenfield maintenance base, to be operational in 2026, is underway. In addition to receiving new aircraft, all existing aircraft are progressively undergoing a full interior refit.

With transformation underway across all facets of the business and India's rich legacy of hospitality, Air India is committed to being a world class global airline with an Indian heart.
