

## AIR INDIA EXTENDS 'VISTA STREAM' IN-FLIGHT ENTERTAINMENT SERVICE TO NARROWBODY AIRCRAFT

**GURUGRAM, 10 December 2024:** Air India, India's leading global airline, has extended its wireless inflight entertainment service, *Vista Stream*, to its narrowbody fleet, ensuring uninterrupted entertainment for guests.

Vista Stream, which debuted in August 2024, has already been introduced across Air India's wide-body fleet (excluding the newly inducted Boeing 777 and Airbus 350 aircraft). With this update, Vista Stream will now be accessible on both widebody and narrowbody aircraft across international and domestic network.

Vista Stream enables guests to stream a wide variety of content directly to their personal electronic devices such as smart phones, tablets and laptops, offering a smooth and immersive entertainment experience.

*"As we continue to transform Air India into a world-class airline, we are happy to introduce Vista Stream that enables our guests to access digital entertainment content on their personal devices during their flight. With the introduction of Vista Stream across our narrowbody fleet, uninterrupted entertainment (BYOD) service will be available throughout the entire domestic and international network,"* said **Rajesh Dogra, Chief Customer Experience Officer, Air India.**

Guests can explore over 1600+ hours of premium curated content, from Bollywood blockbusters and Hollywood hits to captivating documentaries, classic tunes, and curated children's program. Vista Stream also features a live map for real-time flight tracking and is compatible with iOS, Android, Windows, and macOS devices, ensuring easy access to entertainment for all throughout the flight.

### About Air India group

The Air India group – comprising of full-service global airline Air India and low-cost regional carrier Air India Express – is spearheading a new era of Indian aviation. The Air India story began in 1932 when JRD Tata piloted the airline's inaugural flight and opened the skies for aviation in India. Today, Air India group employs more than 30,000 people, operates over 300 aircraft and carries customers to 55 domestic and 48 international destinations across five continents.

Returning to the Tata Sons in 2022 following 70 years under Government ownership, Air India group is in the midst of a five-year transformation program, Vihaan.AI. As part of the transformation, Air India placed the then largest-ever order for 470 new aircraft in 2023. In 2024, sister airlines Air Asia India and Vistara were successfully merged into Air India Express and Air India respectively, and the Airline opened South Asia's largest aviation training academy. A new flying school is scheduled to open in 2025, and construction of a greenfield maintenance base, to be operational in 2026, is underway. In addition to receiving new aircraft, all existing aircraft are progressively undergoing a full interior refit.

With transformation underway across all facets of the business and India's rich legacy of hospitality, Air India is committed to being a world class global airline with an Indian heart.
